

# HEALTHHAUS TRAINING PLAN 5: HALF MARATHON TO FULL MARATHON

# HALF MARATHON TO FULL MARATHON

## About this training programme:

This training programme is aimed at runners who are already comfortable running a half marathon and are wishing to participate in the full Standard Chartered Jersey Marathon (26.2 miles/ 42.2K).

The programme assumes that you will run three times a week, and participate in a weekly strength training or cross training session.

## Running Session Notes:

For all running sessions you should walk briskly for 5 minutes and mobilise.

R/P = Race Pace

## Running Aims:

Weeks 1 – 4: Your aim is to complete the required number of repetitions. This is more important than speed! Run at a pace at which you can answer questions in short sentences.

Week 5: This is an 'easy week'. Run well within yourself so that this session doesn't feel too difficult.

Weeks 6 – 8: It is time to start pushing yourself! Run at a pace at which you could only answer a question with a couple of words.

Week 9: Race week! Complete your runs at a comfortable pace – run well within yourself and save your energy for race day!
